Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 2-5 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arai et al. (U.S. Patent No. 5,287,135) in view of Mizumo et al. (U.S. Patent No. 6,334,030 B1).

Arai et al. discloses a camera body 10 ; an optical portion 20 that pivots to a pop-up open position; and an optical lens 25 included in the optical portion 20. In Fig. 3 it can be seen that the lens 25 is protected by the body portion 10 when the optical portion 20 is in the housed position. The optical axis of the lens 25 when in the pop-up position is disposed at a 90 degree angle to a direction parallel to the surface of the camera body where the fingers of the user are placed on the left and right hand side of the camera body. A strobe is positioned at the outer body portion of the optical portion as shown in Fig. 1. Thus, Arai et al. shows the claimed invention except for a display panel portion fixed to said camera body portion. Mizumo et al., in Fig. 2, shows a camera with a LCD display panel portion 13 mounted on the back of the camera. It would have been obvious to one of ordinary skill in the art, at the time of applicant's invention, to provide the camera of Arai et al. with a LCD display portion mounted to the camera body portion in order to obtain the desirable feature of conveying camera setting information to the user.

Response to Arguments

3. Applicant's arguments with respect to claims 2-5 and 7 have been considered but are moot in view of the new ground(s) of rejection. The new grounds of rejection was necessitated by applicant amending the claims to specify that the pop-up optical portion pivots.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
